

RFView® Version 3.0 High-Fidelity Modelling & Simulation

END USER LICENSE AGREEMENT—DFAR

RFView® Version 3.0, a high-fidelity modelling and simulation tool, is an electromagnetic physics solver that uses publicly available Digital Elevation Maps (DEMs) along with standard physics-based ray tracing and propagation to produce simulated radar returns. It employs well-known and accepted principles of physics to calculate those returns. The simulation environment is built on ISL's industry-leading RF phenomenology engine. Uses of the model include system analysis, test planning, high-fidelity synthetic data generation, signal processing algorithm development, training, strategy development, and conduct-of-operations assessment. The model provides characterization of target returns, direct path signal, ground scattered signal (clutter for radar), direct path signals from interferers, and ground scattered interference signals (hot clutter, splatter, or terrain-scattered interference).

PLEASE READ THIS END USER LICENCE AGREEMENT CAREFULLY:

1.0 Acceptance of Terms. This ISL End-User License Agreement ("EULA") is a legal agreement between you (either as an individual or as a single entity ("you," "your")) and Information Systems Laboratories, Inc. (ISL), a Delaware corporation. This EULA governs all software (Software) and any upgrades, updates, patches, hotfixes, modules, routines, feature enhancements, and additional versions of the Software that replace or supplement the original Software (collectively "Updates"), and any copies of the Software or Updates, and their associated media, printed materials, online or electronic documentation, download sites, notices, and quotes (collectively "Documentation"), distributed by or on behalf of ISL, as well as any support services relating to the Software, Updates, or Documentation (collectively "Support Services"). This EULA governs software created by ISL exclusively at private expense. This EULA does not govern any Software, Updates, or Documentation in which the Government has Small Business Innovation Research (SBIR), Small Business Technology Transfer (STTR), or other property rights. This EULA does not entitle you to any Updates, Support Services, or both at any time in the future, and the availability of, access to, and delivery of any Updates, Support Services, or both may be subject to a separate agreement, including a separate subscription agreement.

- 1.1. ISL created the RFView® Version 3.0 code exclusively at private expense.
- 1.2. ISL may provide you with upgrades or updates to this Software even though it is not required to do so. This EULA will govern any upgrades or updates provided by ISL that replace, supplement, or both the original Software, unless such an upgrade is accompanied by a separate EULA, in which case, the terms of that EULA will govern. If you elect not to install an upgrade or update provided by ISL, you understand that you could cause the Software to become unusable or unstable.
- 1.3. By expressly accepting these terms or by downloading, installing, activating, otherwise using the Software, or any combination of the foregoing, you agree that you have read this EULA and that you agree to comply with and are bound by the terms and conditions of this EULA and all applicable laws and regulations. You may not download, install, activate, otherwise use the Software, or any combination of the foregoing, in the event that you do not agree to be bound by the terms and conditions of this EULA, and you must promptly return the Software to ISL. You acknowledge that you have the appropriate authority to accept these terms and conditions on behalf of any entity upon whose behalf you are acting.

2.0 License. Subject to the payment of the applicable fees for use of the Software, coupled with compliance with the terms, conditions, and restrictions of this EULA (as a condition to the grant below), ISL hereby grants you a limited, personal, nonexclusive, nontransferable, non-assignable license, without rights to sublicense, to install or have

installed, display and use the Software (in object code form only) solely for internal purposes, only on as many devices and in such configurations as expressly permitted by ISL (e.g., as set forth in the applicable ISL sales quote or invoice), or on one device if no other entitlement is specified.

- 2.1. The Software is licensed on a per copy per device basis.
- 2.2. Each hardware partition or blade, cluster, workstation, virtual machine, or personal computer is a separate device.
 - 2.2.1. Hardware or software that you may use to pool connections, reroute information, or reduce the quantity of devices or users directly accessing or using the Software (also known as “multiplexing” or “pooling”) does not reduce the number of licenses required under this EULA.
- 2.3. The Software components are licensed as a single unit. You may not separate the components and install them on different devices.
- 2.4. The Software may include more than one version, such as 32-bit and 64-bit versions; however, you may install only one version of the Software at any one time.

3.0 License Basis. The Software may be licensed on a Perpetual or Subscription basis, as set forth in the applicable ISL sales quote or invoice.

- 3.1. Perpetual Basis. Software licensed on a Perpetual basis conveys ongoing access to the Software for an indefinite period but only to the specific version (“ver,” “VER,” or “V”), revision (“rev” or “REV”), or modification (“mod” or “MOD”) originally licensed.
- 3.2. Subscription Basis. Software licensed on a Subscription basis is licensed for a fixed Subscription Term, including the beginning and end date, which will be listed on the ISL sales quote or invoice. The Subscription start date will commence on the date that the Software is installed and functional. The Subscription will end at the expiration of the Subscription Term, which is one-year after the Software is installed and functional. The Subscription will not automatically renew. For any Subscription, (i) new Subscriptions can be purchased at any time, provided that such purchases are not for retroactive coverage; and (ii) upon your timely renewal of a Subscription, the start date of your renewed Subscription Term will be the day following the expiration of your current Subscription Term.

- 3.3.** No Renewal Obligation. ISL shall not be obligated to renew or extend any License Term or Subscription Term unless otherwise agreed to and signed in writing by ISL and by you.
- 3.4.** Authorized Software and Activation. You are authorized to use this Software only if you are properly licensed and only if the Software has been properly activated with a genuine product key or by another authorized method.
- 3.4.1.** You may activate the Software via the Internet or telephone, either of which will require the transmission of certain information necessary to activate the Software; Internet, telephone, and SMS service charges may apply.
- 3.4.1.1.** Your privacy is important to ISL. Some of the features of the Software may collect and store information necessary to activate the Software. ISL collects and stores information necessary to verify that the user has a proper license and is authorized to use the Software. We do not share information we collect with third parties, except where required by statute, regulation, the Federal Acquisition Regulations (FAR), or contracts to distribute the Software that are governed by the FAR. By accepting this EULA and using the Software you agree that ISL may collect, use, and disclose the information as set out above and as may be described in the user interface associated with the Software activation features.
- 3.4.2.** The Software may determine during activation (or reactivation occasioned by changes to your device's components) that the installed instance of the software is counterfeit, improperly licensed, or includes unauthorized changes. You may receive reminders to obtain a proper license for the Software or the Software may be inoperable in the event activation fails.
- 3.4.3.** Successful activation is not confirmation that the Software is either genuine or properly licensed.
- 3.4.4.** You may not bypass or circumvent activation.
- 3.4.5.** Updates, support, and other services may only be offered to users of genuine ISL Software.
- 3.5.** Updates. Access to Updates may be licensed for a fixed Subscription Term, including the beginning and end date, which will be listed on the ISL sales quote or invoice. The Subscription start date will commence on the date that the Software is

installed and functional. The Subscription will end at the expiration of the Subscription Term, which is one-year after the Software is installed and functional. The Subscription will not automatically renew. For any Subscription, (i) new Subscriptions can be purchased at any time; and (ii) upon your renewal of a Subscription, the start date of your renewed Subscription Term will be the day following the expiration of your current Subscription Term, or the day the renewal is effective, as set forth in the applicable ISL sales quote or invoice, whichever is later.

3.6. Support Services. Access to Support Services is licensed for a fixed Subscription Term, including the beginning and end date, which will be listed on the ISL sales quote or invoice. The Subscription start date will commence on the date that the Software is installed and functional. The Subscription will end at the expiration of the Subscription Term, which is one-year after the Software is installed and functional. The Subscription will not automatically renew. For any Subscription, (i) new Subscriptions can be purchased at any time; and (ii) upon your renewal of a Subscription, the start date of your renewed Subscription Term will be the day following the expiration of your current Subscription Term, or the day the renewal is effective, as set forth in the applicable ISL sales quote or invoice, whichever is later.

4.0 License Limitations and Conditions. This license is conditioned upon ISL receiving your timely payment of any fees or royalties applicable to the Software, Updates, Documentation, Support Services, or any combination of the preceding, or to any hardware in which the Software may be loaded. You may not copy the Software except for a reasonable number of copies solely as needed for backup or archival purposes or as otherwise expressly permitted in Section 2 “License.” You may not allow concurrent use of more than the maximum number of authorized devices with the Software. You may not modify or remove any titles, trademarks or trade names, copyright notices, legends, or other proprietary notices or markings on or in the Software and Updates. The rights granted herein are limited to ISL’s intellectual property rights in the Software and Updates and do not include any other third party’s intellectual property rights. ISL retains ownership of the Software, Updates, and Documentation itself and all related intellectual property rights even though you may own the removable media, such as a CD, DVD, or USB drive, on which it was supplied. You may use only the media appropriate for your device even though the Software, Updates, and Documentation may have been supplied on one or more types of removable media, such as a CD, DVD, or USB drive. You may not use the removable media, such as a CD, DVD, or USB drive, on another device, or loan, rent, lease or transfer them to another user except as expressly permitted by this EULA in Section 2 “License.”

5.0 Trademark, Service Marks, Other Software. You are not granted any rights to any ISL trademarks or service marks. The use of any other software, including any software package or file, whether licensed to you separately by ISL or by a third party, is subject to the terms and conditions that come with or are associated with that software.

6.0 Rights Reserved. *This Software is licensed; it is not sold.* ISL retains all right, title, and interest in and to the Software and in all related content, materials, copyrights, trade secrets, patents, trademarks, derivative works and any other intellectual and industrial property and proprietary rights, including moral rights, registrations, applications, renewals and extensions of such rights (the "Works"), except for the license expressly granted in this EULA. The rights in these Works are valid and protected in all forms, media, and technologies existing now or hereafter developed and any use other than as expressly set forth herein, including the reproduction, modification, distribution, transmission, adaptations, translation, display, republication, or performance of the Works is prohibited. ISL retains all rights not expressly granted herein.

7.0 Restrictions. Except as otherwise provided herein or expressly agreed by ISL, you may not, and will not allow a third party, to do any of the following:

- 7.2.** Provide the Software to, make the Software available to, or permit the Software to be used by, in whole or in part, any third party, including contractors, without ISL's prior written consent, unless such use by a third party is solely on your behalf and is strictly in compliance with the terms and conditions of this EULA (a "Permitted Third Party"). You will include an appropriate contract clause or clauses in any subcontract requiring the Permitted Third Party to comply with this EULA;
- 7.3.** You may not, and will not, allow a Permitted Third Party to, use the Software in excess of the number of licenses purchased from or expressly authorized by ISL in Section 2 "License.";
- 7.4.** Copy, reproduce, republish, upload, post, or transmit the Software in any way;
- 7.5.** Decompile, disassemble, reverse engineer, or otherwise attempt to derive source code or underlying ideas, algorithms, structure or organization from the Software program, in whole or in part;

- 9.0 Support and Subscription Services Not Included.** ISL does not provide any maintenance or support services under this EULA, except as set forth in the ISL sales quote or invoice.
- 10.0 Termination.** Without prejudice to any of its other rights, ISL may exercise its discretion to terminate this EULA or your rights under it at any time if you fail to comply with its terms and conditions or if ISL does not receive timely payment for the licenses to the Software. ISL shall not be required to provide any prior notice of such a termination.
- 10.1. This EULA will terminate automatically if you fail to comply with any of its terms or if the license term ends.
- 10.2. ISL, moreover, may, in the exercise of its sole discretion, terminate any license to the Software distributed for free, at any time.
- 10.3. You may terminate this EULA at any time on written notice to ISL.
- 10.4. Any termination of this EULA shall result in the automatic termination of all licenses granted hereunder, and you must immediately cease use of the Software, Updates, or Documentation and return or destroy the Software and all of its component parts in your possession, including all component parts, the media and Documents, any prior versions, and this EULA.
- 10.5. The parties recognize and agree that their obligations under Sections 2, 3, 4, 5, 6, 7, 8, 9, 11, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, and 23 of this EULA, as well as obligations for payment, shall survive the termination, expiration, or any
